

## General > Trackpad & Mouse

TRACKING SPEED

## Accessibility > Touch > AssistiveTouch

AssistiveTouch

AssistiveTouch allows you to use your iPad if you have difficulty touching the screen or if you require an adaptive accessory.

TRACKING SENSITIVITY

Dwell Control

1,00 Seconds

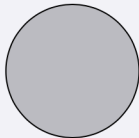

When Dwell Control is enabled, holding the cursor still for the specified amount of time will perform the selected dwell action.

## Accessibility > Touch > AssistiveTouch > Movement Tolerance

The distance you can move while dwelling on an item. If you move beyond this limit, the dwell action isn't performed.

## Accessibility > Pointer Control

POINTER SIZE

Pointer Animations

Allow the pointer to animate and adapt to elements on the screen.

## Display & Brightness

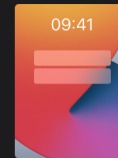

DISPLAY ZOOM

View

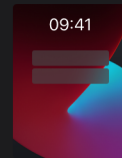

Zoomed >

Choose a view for iPad. Zoomed shows larger controls. Standard shows more content.
